

SOT Nominees

2023-2024

Karin Tidgewell

I like to say that I believe in the power of public schools, and as a member of a military family whose children have attended a combined 17 schools in 7 different states, we have been part of a lot of public schools over the years. Incredible things happen when students learn in safe, supportive environments that have strong partnerships among families, instructors, staff, and school administration. I would like to be part of the Sig Rogich SOT to support those types of important relationships for the benefit of our students.

Jack Wang

Jack Wang is a long time resident of Summerlin, 25 years as a Broker/Realtor Business Owner and an investor; a dedicated Husband and Father. Has helped out the community of Southern Nevada thru the years and currently on a special project with Clark County Shooting Complex focusing on Youth/Junior Trap Shooting events/competition which will grant young adults the opportunity to earn a scholarship. He also started the Sam Wang Foundation with University of Reno providing students the opportunity to earn a scholarship thru UNR. Jack Wang is a leader and a great asset to the community as well Sig Rogich Middle School.

Stephanie Grimes

Education is a vital part of my families survival. I have served on multiple school teams and committees in So. California in various roles such as treasurer, events coordinator, and PTA Organizer. Strategic planning is key for providing insight on recommendations for school performance and budgeting. If I am afforded an opportunity as a SOT member, it will allow me to utilize my knowledge and experiences towards providing a parents perspective. I am extremely excited about researching best decisions for options towards the betterment of school life for our children. I would be honored to help create a positive and fruitful experience by being a part of a collaborative team that will provide necessary resources while fostering a safe environment for the Rogich Middle School culture.

SOT Nominees

2023-2024

Kellie Rodriguez

It is extremely important to me that I be involved in my children's activities, whether it's school or extracurricular. Parent volunteers are crucial because they are seeing first hand what their students need and desire and parents can bring those suggestions to the school. I was a police officer for 10 years before I made the tough decision to leave my career and be at home with my 4 kids. It was a hard decision because I very much loved to serve my community and keep our neighborhoods safe, but I knew I could still be a really big part of the community by volunteering in other ways. And, more importantly, I was able to be home for my kids. I was blessed to find a work from home job which is flexible and allows for me to get involved with our community. I would love to be one of the voices for Rogich. I feel I can bring a lot of value and positive impact to the school.

Anat Burda

I would like to find more ways to fundraise and support the teachers as we need great teachers teaching our children, and they should be motivated to be there. I have a child that is ready and eager to learn every day, and I would hope that his teachers are motivated to teach him. In the sense, I feel fundraising should be supporting the teachers and giving back to them.

Hannah Santoto

I enjoying being an active participant in my child's community. I have spent many hours in my son's elementary school in a variety of ways. I participated in the class room with reading groups and art lessons. I chaperoned field trips and transported children. I participated in fundraising projects such as the spring golf tournament planning and raffle committee. I also participated in the Fall Hoedown silent auction. As a registered nurse I volunteered my time as medical support for the end of the year carnival. My involvement on SOT could benefit Sig Rogich Middle School because of my enthusiasm to provide a charismatic environment for the children in this community.

SOT Nominees

2023-2024

Eleonora Trump

Parent's involvement in school is proven to make children much more successful. SOT gives opportunities to meet other parents and teachers, building rapport and discussing issues that are on your mind. Working closely with teachers and administrators helps tremendously by resolving struggles on many levels and fostering open dialogue. Effective communication leads to better understanding, collaboration, and cooperation creating more cohesive and informed school environment. SOT should play a crucial role in mobilizing financial support by organizing fundraising events in the community, supplementing the school's budget and enriching the educational experience.

Cathy Siciliano

My name is Cathy Siciliano, and I'd like your vote to serve on the Rogich Middle School SOT because I want to represent the voice of Rogich parents in our school plan of operation, performance plan and strategic budgeting decisions.

I believe parents, staff and community members working together can create a great school environment for our children and help them achieve their learning goals. The key to this is being informed parents and giving voice to the daily Rogich student experience, and I will work to do this as a member of the Rogich SOT.

My approach and experience will benefit the Rogich SOT and Rogich community in the following ways: - New and fresh perspective: We just moved to this school district and to Nevada in August 2023, and I have a 6th grader here at Rogich. - Financial acumen and training: I have 20+ years of experience managing large budgets and performance in corporate environments and an MBA from Harvard Business School; both of these experiences will enable me to advise on operational and budget matters. - Community-focus: I enjoy building community and will be sure to bring a community-lens to this role. Currently, I am a leader in BSA Scouts and I also have a degree in Urban Studies from Stanford University. Thank you for your vote for the Rogich Middle School SOT.

SOT Nominees

2023-2024

Camey Cherrington

I had the privilege of serving on the Sig Rogich SOT committee this previous year. I currently have a 7th grade student and he is my third child to attend Sig Rogich MS. I believe in public education and want to see it be successful for all children. With my children currently in High School, middle school and elementary in CCSD I am very aware of policies and procedures. I would like to continue serving on the SOT committee because I believe in the goals set for this coming year and would like to help accomplish them.

Vince Medina

I would like to be an SOT member because I would take the opportunity to be a more engaged and more impactful parent.

I have been an educator for the past fourteen years. First as a teacher then administrator in CCSD working at the middle and high school levels.

In 2020, I was given the opportunity to venture into alternative education and I have become very passionate in that field ever since. Currently, I am a Founding Principal of an alternative education high school that provides a highly structured pathway for credit deficient students to graduate and be connected with wraparound support and immediate workforce opportunities.

I'm very familiar with the operation of an SOT and the value it brings towards a school working towards it's goals. In that respect, I'm committed to being a positive team player. As an educational leader my focal point in all decision making is always determining what is best for students. I will bring that same guidance as a parent in the SOT.
